

SANGHVI
INDUSTRIES

Company Profile

Sanghvi Industries was established in the year 2021 with the objective of manufacturing high quality tarpaulin-based waterproofing products. With over 3 decades in the business, "Smile Tarpaulin" is a leading brand in the country. "Welpack Industries" is the parent company.

It all started with an observation in the early 90's which transformed into a great business venture. Mumbai is known for its population and the unpredictable rains. There was a great demand for good quality waterproofing solutions, especially during monsoons, but the supply was limited as there were few manufacturers offering these products. There was a gap between the demand and the supply and we spotted a great business opportunity. Hence, the birth of Smile Tarpaulins.

With over three decades in business, "Smile Tarpaulin" is a leading brand .

What is HDPE tarpaulin?

HDPE tarpaulins are made from premium quality woven HDPE fabric laminated with LDPE on both sides. There are various qualities and thicknesses available which are made using multiple layers of HDPE sandwiched between layers of LDPE on the outside. These types of tarpaulins are very rugged and are most suited for applications where there is a great deal of wear and tear.

Applications of HDPE tarpaulin

Pondliner

Grass Land Cover

Car Cover

Construction Cover

Railway Wagon Cover

Truck Cover

Why Us?

Variety

Available in a wide range of sizes (from 9 ft x 6 ft to 80ft x 30ft) and thicknesses (from 100 gsm to 400gsm) to suit your application

Quality

To provide the best quality products and services which consistently meet or exceed the expectations of our Customers

Rate

We will always offer the most competitive rates with respect to superior quality.

Our Goal

- **To make our customers and end users happy when they use our products and services**
- **To be recognized as the most preferred brand by delivering quality products and services at best price.**
- **To attain and maintain leadership status in our chosen field of manufacturing Tarpaulins and allied products.**
- **To continuously work towards improving our processes, products and people – all aimed towards one goal - TOTAL CUSTOMER SATISFACTION.**
- **To build trust where people can come to find and discover anything that can protect their material from Rain and Sun**
- **We believe that we are in business to manufacture a great product. We are constantly focusing and innovating to create new products and improve existing products. To leverage new technologies to improve product quality and reduce costs.**
