Our Products

HDPE Tarpaulin

HDPE (High Density Polyethylene) Tarpaulins are manufactured from superior quality woven HDPE fabric laminated with LDPE sheets on both sides. It is a big sheet of flexible, strong, waterproof or water-resistant material, frequently cloth-like polyester or canvas layered and coated with polyurethane, or made of plastics such as high density polyethylene. It is exceptional for covering products, thereby protecting them from dust and moisture, can be used as a protective casing in sectors like automobiles, agriculture, infrastructure and also as floor spreads, shelters, as a cover for machinery, etc. This versatile product has developed a boon to the Indian Industry, particularly in the rainy season. We offer HDPE Tarpaulins in different colours, GSM and sizes.

Garbage Bags

Garbage bags are disposable bags used to comprehend solid waste. Such bags are handy to line the insides of waste containers to prevent the insides of the container from becoming smeared in waste material. Garbage bag is well-suited for garbage disposal purposes. It is manufactured using advanced technology and is virgin in nature. This lightweight and flexible bag has high utility in several applications. Garbage bags are disposable bags that are known for their tear-free nature. We offer garbage bags in different varieties and colours according to the applications.

Today as we live in an environmentally friendly world, we need to consider more than one way to keep the environment clean and protective. All of us need a clean and hygienic environment to live in and a healthy neighbourhood, free from litter on the streets or in the building compound. GO GREEN satisfies this very requirement with the range of Garbage Bags.

Our Garbage Bags are designed to extend the word of cleanliness and hygiene by easy disposal of waste. Our bags offer great flexibility, suitability and certify a high degree of hygiene, whether at home or in the office.

Carry Bags

Carry Bag is manufactured from high quality PE plastic or natural plant starch that do not produce any toxic material. These bags have extended and sturdy handles in W or U cut that are easy to grip. Our Carry Bags are completely water and moisture resistant because of the laminated surface. They are lightweight and have an economical price for users' convenience. Offered Carry bag is biodegradable, has a good printing effect, and has a typical wall thickness, among other features. Our Carry Bag is made of dense material and has plenty of storage space inside.

HDPE Fabrics

HDPE (High Density Polyethylene) Fabric is a woven high density polyethylene fabric with a laminated coating. It is a medium-duty fabric that is durable, lightweight, tear-resistant and impermeable. This fabric is accurately treated with UV stabilizers for providing excellent protection and long life. As HDPE Fabric is available in roll form, it can be run expediently on different cutting and stitching machines.
